

Metal cabinet with solid sliding doors h789_34

Low monoblock or top-mounted metal cabinet with solid sliding doors and 1 internal shelf. Structure in first-choice sheet metal and powder coating. Dimensions: W 180 x D 60 x H 90 cm.

The **metal cabinet with solid sliding doors h789_34** is a high-resistance compact storage module, configurable as both an independent low unit and a top-mounted element for existing storage structures. Made with first-choice cold-rolled sheet metal of the type FEP01 UNI 5886, this technical furniture solves storage problems in **offices, workshops, archives, and laboratories** where height is limited or a useful upper support surface is required. The target audience consists of professional studios, logistics departments, and administrative offices looking for a **stable, durable, and space-saving** solution. The system with solid sliding doors ensures maximum confidentiality of the documents contained and eliminates any frontal obstruction during opening, facilitating operations within corridors or rooms with limited square footage.

Technical features

- **Dimensions:** 180 (width) x 60 (depth) x 90 (height) cm
- **Weight:** 70 kg
- **Volume:** 0.40 Mc
- **Number of packages:** 4
