

Metal cabinet with sound-absorbing doors h1033_10

8/10 steel metal cabinet with sound-absorbing doors, W 90 x D 45 x H 200 cm. Ideal for reducing acoustic reverberation in offices and open spaces.

The **h1033_10 metal cabinet** represents an advanced technical solution for organizing contemporary workspaces. Designed to combine the need for storage with **acoustic well-being**, this furnishing system stands out for the integration of sound-absorbing hinged doors, capable of mitigating the sound reverberation typical of crowded operational environments. The structure features a minimal design with essential lines and refined finishes, making it suitable for professional studios, executive offices, and open-plan areas.

Solidity is guaranteed by a **modular self-supporting carcass** made of top-quality steel sheet, treated to resist heavy loads and daily wear over time. Particular attention is paid to operator safety: every outer edge is rounded with a 2 mm radius, in full compliance with current accident prevention regulations. The centralized locking system and folding keys complete the profile of a product oriented towards maximum professional efficiency.

Technical features

- **Type:** metal cabinet with sound-absorbing doors
- **Dimensions:** W 90 x D 45 x H 200 cm
- **Structure material:** 8/10 DC01 steel sheet – UNI EN 10130
- **Configuration:** self-supporting and modular carcass
- **Safety:** outer edges rounded with a 2 mm radius
- **Doors:** pair of hinged metal doors with sound-absorbing properties
- **Opening:** hinges with a maximum opening of 110°
- **Shelves:** internal 8/10 sheet metal with rounded edges
- **Locking system:** mechanical lock with removable cylinder and progressive numbering
- **Key equipment:** double anti-accident folding key
- **Painting:** epoxy-polyester electrostatic powders after phospho-degreasing treatment
- **Finishes:** various color options available
