

Metal display totem with defibrillator holder h1043_62

Metal display totem with defibrillator case h1043_62 in white steel for indoor and outdoor use. Dimensions: 500 x 50 x H 2000 mm.

The **metal display totem with defibrillator holder h1043_62** is a protection and signaling structure on a dedicated stand, specifically developed for **public administrations, municipal technical offices, corporate safety managers, shopping center managers, and sports facilities**. This display meets the need to position and make life-saving AED devices immediately visible in both indoor and outdoor environments. The module solves the operational problem of **providing a stable and remotely visible self-supporting stand, suitable for housing defibrillator cabinets, while offering large vertical surfaces for placing hazard signs, customizations, or other types of advertising and informative communications**. Both the stand and the case are made of robust heat-treated and 180° powder-coated carbon steel to ensure maximum stability and adequate structural resistance to weathering and wear.

Technical characteristics

- **Product type:** display totem on a dedicated stand complete with defibrillator case
- **Intended use:** designed for the installation of defibrillator cabinets
- **Location and environmental suitability:** suitable for indoor and outdoor positioning
- **Stand/totem material:** PO2 carbon steel
- **Stand sheet metal thickness:** 15/10
- **Stand preliminary treatment:** phosphodegreasing in high-temperature tunnels
- **Stand painting and finishing:** WHITE polyester powder coating with 180° thermal gallery firing
- **Display surfaces:** large surfaces for placing hazard signs, possible customization, and advertising or other communications
- **Stand dimensions (W x D x H):** 500 x 50 x 2000 mm (+ BASE with dimensions 500 x 350 mm)
- **Total totem weight:** 25 kg
- **Defibrillator case material:** galvanized P02 carbon steel sheet
- **Case painting and finishing:** RAL9010 white epoxy-polyester powder coating with 180° thermal gallery firing
- **Door configuration:** 1 windowed door
- **Hinge type:** hinges with galvanized pin and 180° opening
- **Internal housing:** internal hanging hook for defibrillator
- **Case closing mechanism:** sealable padlockable closure in nickel-plated zamak

- **Applied visual signage:** sticker with AED signage

** Images are purely indicative*

INFORMATION

- **Length in millimetres** 500.000000
- **Depth in millimetres** 50.000000
- **Height in millimetres** 2000.000000
