

Metal office cabinet h786_16

Monoblock storage cabinet in 0.8 mm sheet metal with sliding doors, 120x45x200 cm. Equipped with 4 adjustable shelves compatible with hanging folders.

The **metal office cabinet** represents the professional solution for the organization and security of documents and folders in operational and administrative contexts. The **monoblock structure** is made of robust steel sheet with a thickness of 0.8 mm, treated with epoxy powder coating in **RAL 7038** to ensure resistance to wear and chemical detergents. The opening system features **sliding doors** on tracks integrated into an anodized aluminum front frame, a design choice that minimizes external bulk during consultation. Security is entrusted to a cylinder lock, while internal modularity is guaranteed by adjustable shelves on racks.
