

Metal pallet cage with runners h746_40

Industrial sheet metal container with runners. Load capacity: 1000 kg. Dimensions: 1000Lx800Px650H mm + 130H foot.

The metal container for the industrial sector represents a useful element for the storage and organization of industrial waste, such as cardboard and plastic elements. The container features a **solid electro-welded mesh structure**, stackable 1+3 and **equipped with runners and a door**. The product has a **maximum load capacity of 1000 kg** and is powder-coated for outdoor use, making it particularly **resistant to atmospheric agents, UV rays** and general wear and tear over time.

Technical features:

- Material: electro-welded mesh
- With runners and door
- Stackable 1+3
- Load capacity: 1000 kg
- Outdoor powder coating
- Dimensions: 1000Lx800Px650H mm + 130H foot
- Color: green
