

## Metal planter with seating h140\_452

Cylindrical planter with seating in galvanized steel for urban furniture. Dimensions: W. 375 x D. 375 x h. 90 cm.

**Planter with a cylindrical structure**, composed of an **upper ring in round galvanized steel tube** and a **perimeter body made of galvanized sheet metal with alternating circular holes**. The body is reinforced by vertical supports in galvanized steel sections. The planter **includes a composition of benches with convex-sided seating** and is perfect for placement in public squares and parks. Each bench is composed of 4 opposing arched supports, made of galvanized rectangular tube adorned with galvanized rounds, and a seat-backrest made with 25 curved profiles in round galvanized steel tube complete with spherical-head PVC end caps. The profiles are welded onto specific 50 x 8 mm flat iron templates. **Internally the planter is equipped with an internal fiberglass tub**, positioned on specific base profiles made of galvanized steel sections. The product is subjected to anti-corrosive treatment, is made in the **gunmetal gray color** and is **powder-coated with thermosetting powders and oven-baked**. **The planter module is self-supporting and does not require fixing to the ground**. **The benches are supplied in an assembly kit with steel hardware**.

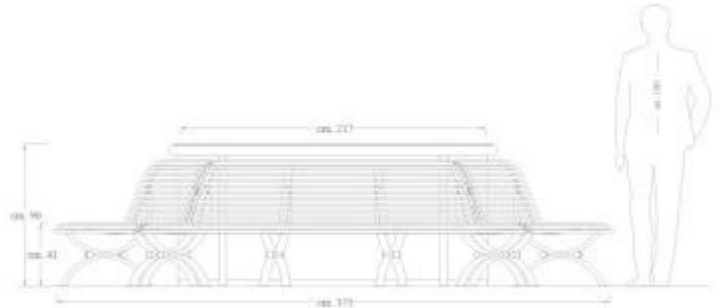

### Technical features:

- Planter with seating
- Shape: cylindrical
- Dimensions: W. 375 x D. 375 x h. 90 cm
- Upper planter diameter: 217 cm
- External base diameter (benches): 375 cm
- Seat height: 41 cm
- Material: galvanized steel subjected to anti-corrosive treatment and powder-coated with thermosetting powders
- Color: gunmetal gray
- Composition of benches with convex-sided seating
- Internal planter tub made of fiberglass, positioned on specific base profiles made of steel sections
- Planter fixing: self-supporting, does not require ground fixing
- Benches supplied in assembly kit with steel hardware
