

Metal guard for plants and trees h140167

Vertical tree guard made of metal. Dimensions 150x50x50 cm (hxxwxd). Italian product. Color: Gunmetal grey.

Vertical tree guard made of metal. Italian product.

This tree guard is easy to combine with tree grates. It provides a sturdy metal protective frame around the tree and adds a touch of elegance to the surrounding urban furniture. Its simple design is well-suited for historic centers. It is composed of two halves easily assembled with the supplied screws and is custom-made for the customer.

Anti-corrosion treatments and finishing

- **Pre-treatment:** before being painted, the product is pre-treated by spray washing with special degreasing liquids. After washing, the product to be painted is dried for 15 minutes in a dryer.
- **Anti-corrosion treatment:** in order to provide suitable protection against atmospheric agents, the product is subjected to a first painting cycle using a thermosetting anti-corrosive powder primer based on epoxy resins with special pigments.

- **First baking:** the product treated with the anti-corrosive primer is subjected to a first oven baking lasting 15 minutes at a temperature of 180°. In this phase, the anti-corrosive polymerizes, forming a coating thickness of approximately 60 micron.
- **Painting:** the product is subjected to a final painting cycle with thermosetting powder based on polyester resins in **gunmetal grey** color. Painting is performed with electrostatic spray equipment, which allows the powder to settle uniformly on the pieces, forming a minimum thickness of 60 micron.
- **Final baking:** the painted product is subjected to a final oven baking lasting 20 minutes at a temperature of 160°.

Technical characteristics:

- material: painted stainless steel
- color: gunmetal grey;
- upper internal hole cm. 30;
- lower internal hole cm. 50;
- total height cm. 150;
- weight kg. 17.
- composed of two modules designed to be assembled;
- fixing: to be bolted;
- assembly kit included.

INFORMATION

- **typology** verticale
