

Metal umbrella stand with black finishes h957_30

Cold-rolled sheet metal umbrella stand with black finishes, Ø 21.5x51 cm. Fireproof structure and water collection tray for professional environments.

The **metal umbrella stand H957_30** is a technical furnishing accessory designed for the organization of entrances in high-traffic contexts and refined domestic environments. Made of **DC01 quality cold-rolled sheet metal** (EN10130 standard), the device ensures high structural resistance and a long operational life. Surface protection is guaranteed by an **electrostatic fireproof polyester resin coating**, polymerized at 200°C, which gives the product anti-scratch and anti-corrosive properties.

The integration of an **internal shockproof polystyrene water collection tray** allows for effective management of dripping, keeping floors dry and preventing slipping risks. Thanks to the essential design and **compact dimensions**, it fits easily into small spaces without compromising storage capacity.

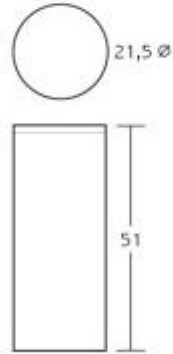

Technical features

- **Main material:** White cold-rolled sheet metal, DC01 quality (EN10130 standard).
- **Base and finishes:** Impact-resistant polyethylene with black details.
- **Water collection tray:** In shockproof polystyrene, removable for maintenance operations.
- **Painting:** Fireproof polyester resin, thickness 60 microns.
- **Fire reaction certifications:** European classification A2-s1, d0 (UNE EN 13501 standard) and M1 (UNE 23727 standard).
- **Thermal process:** Polymerization at 200° for 20 minutes.
- **Dimensions:** Ø 21.5 cm x H 51 cm.
- **Weight:** 1.7 kg.
- **Color range:** Available in different color variants.
- **Performance tests:** Certified for resistance to abrasion, impact, and fire stability.
