

Metal workbench with 4 drawers h286_67

Metal workbench h286_67 in RAL 5010 blue steel with wood and sheet metal top (300x70xH90 cm), 4 drawers, cabinet and 2 rag holders.

The **Metal workbench with 4 drawers h286_67** is a monoblock workstation for industrial environments and technical workshops, designed to offer a high-resistance operational surface and rational tool management. This technical furnishing solves the organizational and operational criticality of workshops, allowing for the immediate integration of storage and processing in a single structure on which vices and shelves can be mounted. Intended for a professional target audience consisting of technicians, maintenance workers, and laboratory or production department managers, the bench is made of a robust angular steel structure powder-coated in the standard RAL 5010 blue color. The upper surface consists of a 43 mm thick wooden top, covered in sheet metal with 20 mm high perimeter edges on three sides, flanked by a lower sheet metal shelf also equipped with edges. The structure measures 300 cm in width, 70 cm in depth, and 90 cm in height. The equipment includes 4 metal drawers sliding on nylon-covered ball-bearing guides, with end-of-travel stops and locks, a metal cabinet with a fixed internal shelf and key lock, as well as 2 open metal rag holders.

Technical characteristics

- **Width:** 300 cm
- **Depth:** 70 cm
- **Height:** 90 cm
- **Structure type:** Monoblock in robust angular steel structure
- **Upper top:** 43 mm thick wood, covered in sheet metal with 20 mm high perimeter edges on three sides
- **Lower shelf:** In sheet metal with edges
- **Painting:** Performed with oven-baked powders
- **Standard color:** Blue RAL 5010
- **Structural setup:** Possibility to mount vices and shelves
- **Drawers:** 4 metal drawers sliding on nylon-covered ball-bearing guides, with end-of-travel stop and lock closure
- **Cabinets:** 1 metal cabinet complete with 1 fixed internal shelf and lock closure
- **Integrated accessories:** 2 open metal rag holders
