

Fast food tray trolley h09189

Professional tray trolley in **stainless steel** with capacity for **10 GN 1/1 trays**. Robust single-column structure, equipped with multi-directional wheels and bumpers, ideal for canteens and self-service.

The **stainless steel tray trolley** è the indispensable equipment for logistic organization in high-traffic environments such as company canteens, fast food outlets, hospitals, and self-service restaurants. Designed to maximize efficiency in tray recovery and storage, this model offers an optimized vertical structure that occupies minimal floor space (only 38 cm wide).

The construction entirely in **stainless steel** guarantees maximum hygiene and resistance to corrosion, making it suitable for contact with food and easy to sanitize. The runners are calibrated to accommodate **10 GN 1/1 format trays** (530x325 mm) with a spacing of **12 cm**, ideal for housing trays even in the presence of bulky tableware. Movement è made safe and fluid thanks to the four multi-directional wheels, protected by rubber bumpers to safeguard walls and furniture.

Technical characteristics

- **Material:** Professional Stainless Steel (structure and runners)
- **Capacity:** 10 GN 1/1 Trays (530 x 325 mm) or Fast Food trays
- **Distance between runners:** 120 mm (large useful space between shelves)
- **Total dimensions:** W 38 x D 62 x H 175 cm
- **Movement:** 4 multi-directional wheels
- **Protection:** Circular rubber bumpers on each wheel
- **Stability:** Reinforced single-column structure

* Trays not included. Product compliant with current hygiene and health regulations.

INFORMATION

- **capacity** 10 vassoi
- **Height in millimetres** 1750.000000
- **Width in millimetres** 380.000000
- **Depth in millimetres** 620.000000
