

Mini key safe h7684

Key security box with 4-digit mechanical combination. Dimensions: 95 x 115 x 40.

The **mini safe** is the ideal product for **storing keys** for hotel **rooms**, bed and breakfasts and holiday homes. Thanks to the **mechanical combination**, it will be sufficient to simply communicate a **4-digit code** to the customer to **allow them** to check in or out at any time, without **compromising the security** of the facility. The **shutter cover** also protects the dial from atmospheric agents, making it possible to install the box **even outdoors**. The innovative scope of the product lies in guaranteeing a **service without time constraints** to your customers.

Technical features:

- Mechanical combination
- 4-digit programmable combination
