

Mini playground swing h975_16

Mini double swing h975_16 made of durable materials, dimensions 240x31x153 cm. Ideal for small spaces with a fall height reduced to 0.55 m.

The **mini double swing h975_16** is a professional play structure designed specifically for early childhood, ideal for setting up play areas in public, school, and recreational contexts. Thanks to its compact configuration, it solves the space constraints typical of urban environments while ensuring the highest safety standards for younger children. The structure is engineered for **stable fixing on concrete bases**, ensuring superior mechanical resistance during intensive use.

Technical characteristics

- **Type:** Double swing for simultaneous use
- **Overall dimensions:** L 240 x W 31 x H 153 cm
- **Installation:** Designed for concrete anchoring
- **Age target:** Recommended from 2 years old
- **Active safety:** Free fall height (HIC) of only 0.55 m
- **Impact area:** Required fall surface 5.44 x 3.34 m (544 x 334 cm)
- **Materials:** Components with high resistance to weather agents and UV rays
