

Mini swing with mixed seat h975_19

Mini double swing h975_19 with mixed seat (flat and cradle). Compact and resistant structure for public parks and play areas from 2 years and up.

The **mini swing h975_19** represents a versatile and efficient solution for setting up public, school, and residential green area playgrounds. Thanks to the differentiated double seat configuration — a **flat seat** for older children and a **cradle seat** for the little ones — the module allows simultaneous use by different age groups, promoting playful integration and the development of motor skills in total safety.

Built with high-performance materials, the structure is designed to withstand **intensive use** and prolonged exposure to atmospheric agents, reducing extraordinary maintenance interventions. The compact design optimizes the ground footprint, making it ideal even for urban contexts with limited space.

Technical features

- **SKU Code:** h975_19
- **Configuration:** Double swing with mixed seating (1 flat + 1 protective cradle seat)
- **Recommended age of use:** From 2 years and up
- **Overall dimensions:** 240 x 31 x 153 cm
- **Safety area:** 544 x 334 cm
- **Free fall height (HIC):** 0.55 m
- **Resistance:** Certified materials for public outdoor use and resistance to mechanical wear
