

## Mobile adjustable H desk h872\_34

H872\_34 mobile desk in melamine, height-adjustable (730-1030 mm), for flexible teaching and ergonomic individual workstations size T2-T5.

The **H872\_34 mobile desk** is an individual workstation designed to meet the needs of modern and dynamic school environments. Thanks to a **pneumatic adjustment** system, the module allows for smooth adjustment of the top height, supporting both sitting and standing activities. This flexibility makes it an essential tool for inclusive teaching, accommodating students with heights between 133 and 188 cm (corresponding to sizes T2-T3-T4-T5).

The 70x50 cm work surface is built to withstand intensive stress: the melamine top is **scratch-resistant, waterproof, and heat-resistant**. User safety is guaranteed by injected PVC edges with rounded corners, eliminating dangerous sharp edges. The structure, equipped with integrated wheels, facilitates immediate classroom reconfiguration while ensuring maximum stability thanks to the parking brakes.

## Technical characteristics

- **Top dimensions:** 700 x 500 mm
- **Height adjustment:** Manual gas-lift, from 730 to 1030 mm
- **Top material:** Melamine particle board (18 mm thickness)
- **Safety:** Injected PVC edges with rounded corners
- **Accessories included:** Integrated pencil holder and storage drawer
- **Mobility:** 2 wheels equipped with a braking locking system
- **Anthropometric compatibility:** School sizes T2, T3, T4, T5
- **Structure:** Grey painted metal legs
- **Supply:** Disassembled product with instruction kit
- **Warranty:** 5 years
