

Mobile hand wash station h464_282

Professional portable hand wash station. No connection to the water or electrical network required. Dimensions: W36 x D38.4 x H122.2 cm.

Mobile hand wash station ideal for use by caterers during catering or events. Its **mobile structure with 2 rear wheels**, makes it easily transportable anywhere and furthermore, it does not require any connection either to the water network or to the electrical network. It is indeed equipped with a **12.5 lt tank to be filled manually**, from which water is dispensed by pressing a **foot button** located at the bottom of the structure; the water then flows into a **separate drain tank** which, once full, must be emptied in a practical and fast way. Included in the supply is also the **aerator** which ensures greater water savings allowing over 300 washes. Access to the tank is via a **lockable door**. The hand wash station is made of **stainless steel**, a material that ensures long life, corrosion resistance, and ease of cleaning, thus perfect hygiene. Finally, in the upper part there is a **convenient splash guard** and in the lower part there is a **stainless steel reinforcement panel around the pedal**.

Technical features:

- Dimensions: W36 x D38.4 x H122.2 cm
- Weight: 15.5 kg
- Material: stainless steel
- Water dispensing via foot button
- No connection to the water or electrical network
- 12.5 lt water supply tank (manually refillable)
