

Mobile metal barrier 250 cm h287_139

Mobile barrier for urban furniture, in galvanized steel. Dimensions: W250 x H110 cm

Road barrier for urban furniture to be used for delimiting public or private spaces. Provided at the sides with a **convenient coupling system with 2 hooks and 2 clips** and at the top with a space for housing a reflective strip (not included). The **structure is made of round tube** (diam 35 x 1.5 mm) **of hot-dip galvanized steel** by means of a molten zinc bath and **solid round iron vertical bars** (diam 10 mm) with a distance of 12 cm from each other.

Technical features:

- Dimensions: W250 x H110 cm
- Material: galvanized steel and iron
- With 2 hooks and 2 clips
- Designed for the insertion of a reflective strip
- Reflective strip not included
- Hot-dip galvanizing according to UNI EN ISO 1461 and UNI EN 1179 standards

**Image purely indicative, the reflective strip is not included*

**Upon request, it is possible to request the reflective strip in both single-sided and double-sided versions.*
