

## Mobile phone locker cabinet with white back panel h46117

Wall-mounted mobile phone locker cabinet with 32 compartments, 18 mm melamine structure, customizable colored door with cylinder lock. Dimensions: W40 x D32 x H41 cm.

The **H46117 mobile phone locker** is a functional and secure solution for the tidy storage of **up to 32 mobile devices**, designed for school environments, public offices, libraries, and community spaces. The compact design, the **wall-mounted structure**, and the robust materials make it a perfect element for the disciplined management of smartphones, contributing to **concentration and respect for rules in the classroom** or workplace.

The structure is made of 18 mm thick **melamine-faced wood fiber conglomerate**, complete with two sides, base, and top. The 2 mm **ABS edges** offer protection and durability over time. The finished back panel is made of **18 mm melamine**, while the joining mechanisms are screw-based with beech dowels for greater stability.

The heart of the cabinet is an **internal MDF block with 32 compartments**, securely anchored to the internal side to guarantee solidity and organization. The **hinged door** is also made of 18 mm melamine-faced conglomerate, edged with **3 mm ABS with a rounded profile**, according to European accident prevention regulations.

The door is equipped with **270° opening hinges** for maximum usability and includes a **cylinder lock with key** to keep devices safe from unauthorized access. The structure is entirely **white**, including sides and back. The **door is customizable** and available in different finishes to best suit the furnishing context.

## Technical characteristics
