

Mobile polyethylene diesel tank h466_09

Mobile tank h466_09 in polyethylene, 55 liters, for diesel fuel. Featuring pneumatic wheels, 4 mm thickness, manual aluminum pump, and 3 m hose.

The **h466_09 mobile polyethylene diesel tank** with a 55-liter capacity is a practical and compact solution designed to facilitate on-site refueling operations. This product solves the logistical problem of safe fuel handling in difficult operational contexts, thanks to an ergonomic handle and pneumatic wheels suitable for movement on any surface. Targeted at professionals in the agricultural, craft, and construction sectors, the tank ensures high structural robustness, achieved through a corner-free design, reinforced ribs, and a wall thickness of 4 mm. The equipment is supplied ready for use, integrating a filler cap with vent, a safety ball valve, and an autonomous dispensing system consisting of a manual rotary aluminum pump, 3 meters of hose, and a manual nozzle.

Technical characteristics

- **Type:** Mobile trolley tank for fuel
- **Fluid compatibility:** Diesel
- **Nominal volume:** 55 liters
- **Overall dimensions (W x D x H):** 460 x 360 x 900 mm
- **Material thickness:** 4 mm
- **Unladen weight:** 8 Kg
- **Handling:** Integrated pneumatic wheels and upper ergonomic handle
- **Structure:** In polyethylene with reinforced ribs and corner-free design
- **Dispensing unit:** Manual rotary aluminum pump
- **Transfer accessories:** 3-meter flexible hose and manual nozzle
- **Safety systems:** Filler cap with integrated vent and safety ball valve
