

Mobile unit on wheels with play surface h40226

Low unit on wheels with 12 plastic containers and a covered play surface. Dimensions 830x830x530 mm.

The **mobile unit on wheels with play surface** is a practical and space-saving solution.

In fact, thanks to the special structure on wheels designed to accommodate **12 plastic trays** and a play surface covered with a **carpet with a non-slip bottom**, it represents a compact play island, easy to move. Thanks to the raised edges, toys do not fall off the surface.

The structure is **made of melamine-faced wood conglomerate** with a **thickness of 18 mm**, **laminated with plastic and with maple finishes**.

To ensure the child's maximum safety, the **corners are rounded** and the **edges finished in safety ABS**.

Technical characteristics:

- Structure: melamine-faced wood conglomerate
- Dimensions 830x830x530 mm (WxDxH)
- Equipped with 12 plastic trays: 4 large and 8 small
