

Modern design outdoor bike rack h140_537

Shaped urban furniture bike rack, in RAL 1018 matt zinc yellow sheet metal. Weight: 17 kg. Dimensions: W 73 x D 16 x H 75 cm.

The **modern design bike rack H140_537** is an **urban furniture** element with a unique style, characterized by a **stylized silhouette** that combines aesthetics and functionality. Made of **8 mm thick galvanized sheet metal**, laser-cut and precisely shaped, it is an ideal solution for the orderly parking of bicycles in public spaces, corporate areas, cycle paths, schools or squares.

The structure is equipped at the base with **holes for ground anchoring**, ensuring stability and safety during use. It is supplied **already assembled** and complete with **steel hardware and fixing instructions**, simplifying installation operations. Fixing is carried out using **anchor bolts and expansion plugs**, ensuring a solid and durable anchoring.

The **thermosetting powder coating** finish in **RAL 1018 matt zinc yellow** not only provides visibility and recognizability, but is also the result of an **accurate cycle of anti-corrosion treatments**: washing and degreasing, sandblasting, application of protective powder primer and polymerization, followed by colored finish and final baking at 180°C. This process guarantees **protection against rust, wear and atmospheric agents**, preserving the product's aesthetic appearance for a long time.

The modern design, combined with the robustness of the materials and company quality certifications, makes the H140_537 a perfect choice for urban furniture projects requiring **functionality, durability and a distinctive visual impact**.

Give value to public spaces with an iconic and resistant design bike rack: order the **H140_537 rack** now or request a personalized quote.
