

Modern design wood and steel bench h330_64

Urban furniture bench with galvanized and painted steel structure and okumè wood seat. Dimensions: L. 1865 x D. 698 x h. 760 mm

The **h330_64 bench** stands out for its **modern and essential design**, designed to furnish public spaces, parks, avenues, and squares with style and functionality. Made with **laser-cut shaped plates** in **galvanized and painted steel**, it guarantees solidity and resistance to atmospheric agents. The structure is equipped with a **base plate with holes for floor anchoring**, ensuring maximum stability even in busy urban contexts.

The **seat and backrest** are composed of **okumè wood slats** with a **natural finish**, offering a high level of comfort and a warm, welcoming aesthetic appearance. The **AISI 304 stainless steel hardware** ensures long-term durability without risk of corrosion.

Choose the h330_64 bench: robust, elegant, and ready to enhance any urban space.

Technical features:

- **Dimensions:** L. 1865 x D. 698 x h. 760 mm
- **Seat height:** 420 mm

- **Hardware:** in AISI 304 stainless steel

User benefits:

- **Contemporary design:** enhances any urban environment.
- **Durable materials:** galvanized steel and okumè wood to last over time.
- **Guaranteed comfort:** ergonomic seat and backrest in natural wood.
- **Reduced maintenance:** solid structure and anti-corrosion stainless steel hardware.
- **Versatility of use:** ideal for urban furniture, gardens, parks, and public areas.

FAQ:

- 1. Is the bench suitable for outdoor use?**
Yes, it is designed to withstand weather conditions in outdoor environments.
- 2. What is the seat height from the ground?**
The seat height is 420 mm.
- 3. Is it possible to fix it to the ground?**
Yes, the base plate is equipped with holes for ground anchoring.
- 4. What type of wood is used?**
The slats are made of okumè wood with a natural finish but, upon request and subject to a quote, it is possible to choose slats in different finishes (wengè or iroko).
- 5. Can the metal structure be customized?**
Yes, it is available in various RAL colors.

Mini buying guide:

The **h330_64 bench** is designed for public entities, designers, and urban space managers who wish to combine **functionality, aesthetics, and resistance**. The **galvanized and painted steel** structure, combined with the warmth of **okumè wood**, guarantees an ideal solution for outdoor environments exposed to atmospheric agents.

The contemporary design with **clean and geometric lines** fits perfectly into modern architectural contexts, such as redeveloped squares, pedestrian paths, relaxation areas of shopping centers, museums, or university campuses.

Thanks to the **AISI 304 stainless steel hardware** and the possibility of **ground anchoring**, the bench offers high stability and safety even in high-traffic spaces. The choice of high-quality materials and the **natural finish of the wood slats** make this furniture a **durable and low-maintenance solution**, designed to last over time.
