

Modern outdoor bench h330_67

Modern style bench for public spaces, with a painted steel structure and a natural finish wooden seat. Dimensions: L. 1800 x D. 460 x h. 420 mm.

The **h330_67 bench** is designed to furnish public and urban environments with style and efficiency. Thanks to its **linear and contemporary design**, it fits perfectly in parks, squares, pedestrian paths, and outdoor spaces of public buildings.

The **structure** is entirely made of high-quality **painted steel**, resistant to corrosion and atmospheric agents. It is available in **various RAL colors**, for perfect integration into any architectural context.

The **seat is composed of wooden slats** with a **natural finish**, which give the bench a warm and welcoming touch, harmoniously contrasting with the sturdiness of the metal structure.

This combination of materials ensures not only **strength and durability**, but also a **high aesthetic level**, ideal for modern and refined contexts.

The **seat height of 425 mm** ensures optimal comfort for users, promoting prolonged use even in high-traffic areas.

Choose the modern h330_67 bench to offer comfort, aesthetics, and durability to your public spaces. **Add it to your cart or contact us for more info!**
