

Three-seater modular bike rack h109105

Three-seater modular bike rack, entirely removable and easy to assemble. Fixing: to be bolted to the ground.

The **bike rack** is a practical solution for outdoor use at **schools, parks, shopping centers and offices**. This bike rack is equipped with **3 spaces** but thanks to the **modular structure** it is possible to create a large bicycle parking area. In fact, **the structure is entirely removable**, it must be bolted to the ground.

To improve visibility even in low light conditions, each arch is equipped with two **reflective bands**.

This product is equipped with 3 arches that allow the bicycle frame to be tied. The starting arch is higher than the others and a sign can be applied upon request (sign not included).

The galvanized steel structure can be painted in RAL colors. Galvanized steel is a particular type of stainless steel obtained through a surface heat treatment called galvanization for better protection against corrosion.

Technical features:

- Dimensions: mm 2500x600 (W x D)
- Arch height: mm 800 - 1250
- Structure: galvanized steel
- Fixing: to be bolted
- 3 arches with reflective bands
- **Available in different colors**
- **Made in Italy**

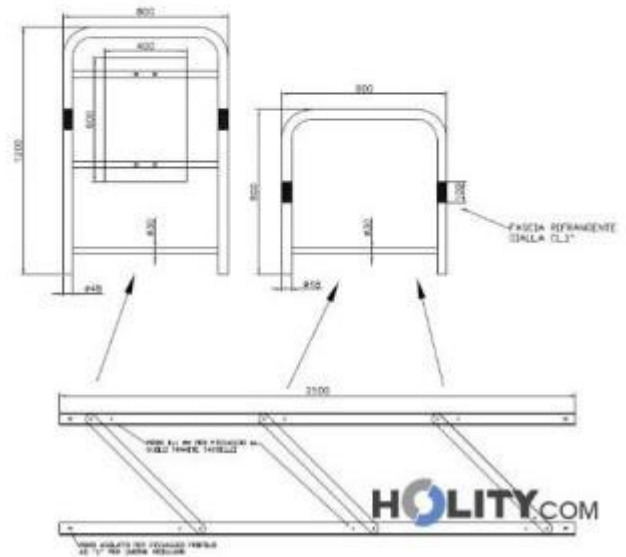

Optional:

- Sign 40x60 cm complete with attachments
