

Modular desk for kindergarten h908_148

Wave-shaped modular kindergarten desk (120x60 cm). Aluminium steel structure with Ø 60 mm legs and 46 cm height for modular configurations.

The **H908_148 modular desk** is a technical furnishing solution designed specifically for **kindergartens**. Its characteristic wave geometry (semicircle) has been studied to overcome the rigidity of traditional layouts, allowing for the creation of dynamic **modular configurations**: by placing several units together, it is possible to compose circular, elliptical, or serpentine tables, facilitating interaction and cooperative learning among children.

The structure is built to withstand intense cycles of use in educational contexts, while ensuring a stimulating environment thanks to the color finish of the top. The ergonomics are calibrated to **Size 1**, ensuring correct posture during educational and play activities.

Technical specifications

- **Type:** Modular kindergarten desk
- **Geometry:** Wave shape / Semicircular
- **Dimensions:** L 120 x W 60 x H 46 cm
- **Fixed height:** 46 cm (compliant with Size 1 - Kindergarten)
- **Top material:** High-resistance orange panel
- **Structure:** Aluminum-colored epoxy powder-coated steel
- **Supports:** Cylindrical legs with increased diameter Ø 60 mm

Available options: Alternative colors for the worktop can be requested, following consultation of the technical color chart and a dedicated quote.
