

Modular half-moon desk h 64 cm h908_124

Modular half-moon desk in steel and recycled wood (Ø90x64 cm), ideal for collaborative teaching and School 4.0 modular classrooms.

The **h908_124 modular half-moon desk** is a technical furnishing solution designed to support the new paradigms of **innovative teaching**. Thanks to its specific geometry, the module meets the needs of **modular classrooms** envisaged by the School 4.0 Plan, allowing for a rapid reconfiguration of spaces to move easily from individual work to **cooperative learning** activities.

The construction stands out for the use of an **ecological panel top** made of 100% recycled wood, ensuring full compliance with the **Minimum Environmental Criteria (CAM)**. Structural solidity is ensured by **40 mm diameter steel tube** legs, sized to withstand the prolonged mechanical stress typical of the primary school environment.

Technical features

- **Dimensions:** Ø 90 cm x height 64 cm
- **Size:** 4 (optimized for ergonomics in primary school)
- **Geometry:** Modular half-moon shaped model
- **Frame:** High-resistance Ø 40 mm steel tube legs
- **Worktop:** 100% recycled wood ecological panel
- **Standard finish:** Light blue colour
- **Regulatory compliance:** Strict adherence to CAM requirements
- **Intended use:** Primary schools, laboratories, 4.0 classrooms

Options and customizations:

- Alternative top colours available upon request (consult the attached colour chart).

Note: The price indicated refers to the single unit. To compose a complete circular configuration, the purchase of 4 modules is required.
