Modular kindergarten school table size 1 h908_152

Hexaround modular table for kindergarten in steel and ivory melamine. Dimensions 120x60x46 cm, ideal for collaborative configurations.

The **H908_152 modular table** represents a versatile and robust solution for furnishing **kindergarten** educational environments. Thanks to its peculiar "hexaround" geometry, this piece of furniture was designed to favor cooperative learning: its linkable shape allows for composing circular tables or complex organic configurations, optimizing space and stimulating interaction between children.

Attention to ergonomics is guaranteed by the height of 46 cm (**Size 1**), specific for the preschool age group. The chromatic choice of the ivory top is dictated by the need to create a neutral environment that reduces visual distractions, favoring concentration during manual and learning activities.

Technical specifications

- **Type:** Linkable modular table for kindergarten
- **Shape:** Hexaround (hexagon with curved sides for circular compositions)
- **Top dimensions:** 120 x 60 cm
- **Height:** 46 cm (compliant with Size 1 - School regulations)
- **Structure material:** Steel tube with increased diameter Ø 60 mm
- **Structure finish:** Aluminum-colored powder coating
- **Worktop:** Ivory-colored melamine
- **Stability:** High-resistance anti-scratch terminal feet

Available options:

- Chromatic customization of the worktop on request (after consulting the color chart).
