

Modular outdoor signage stand h738_131

Signage stand with a pair of aluminum posts and 6 customizable slats for outdoor use. Dimensions: W 1640 x D 45 x H 2000 mm.

The **h738_131 outdoor information panel** is a versatile signage solution, ideal for providing clear and professional orientation and information in the outdoor areas of public and private buildings. Designed to be used in spaces such as parking lots, corporate gardens, hospital entrances, shopping centers, museums, and other high-traffic public areas, this stand combines **durability, modularity, and customization**.

The structure is composed of **two powder-coated metal posts**, a material that not only ensures long life and resistance to atmospheric agents but also offers a modern and clean aesthetic, adaptable to any type of environment. The **posts** are equipped with **ABS end caps** and can be fixed to the ground with sturdy **painted steel bases**, or permanently installed using **grounding brackets**. This dual installation option makes the stand extremely versatile, adaptable to both temporary contexts and fixed, long-term installations.

The heart of this modular system consists of **6 extruded aluminum slats**, customizable on both sides, which are inserted by sliding them inside the posts thanks to a practical system of pins fixed with screws. The **surface of the slats** can be customized with indications, text, or graphics, making the stand perfect for providing precise information, orienting the public, or indicating paths and directions. The number of slats can be chosen based on specific needs, allowing maximum flexibility in signage design. Furthermore, the **slats** are available in **various widths and heights**, with a standard thickness of 20 mm, to adapt to various types of visual communications.

Available in a refined **gothic grey finish**, the stand integrates perfectly into modern and professional contexts. Thanks to its **resistance to atmospheric agents**, it is perfect for prolonged outdoor use, even in difficult weather conditions. This stand represents the ideal solution for entities that require **durable, highly visible, and customizable signage**.

Don't let your outdoor areas remain without clear and professional signage! **Buy now** your **h738_131 modular outdoor signage stand** and customize it according to your needs.

FAQ:

1. Can I add more slats in the future?

Yes, the modular structure allows for adding further slats.

2. What are the fixing options?

Painted steel bases or grounding brackets are available.

3. Are the slats customizable on both sides?

Yes, they can be customized on both sides for greater versatility.

4. Is the stand weather-resistant?

Yes, the materials used are designed to withstand outdoor conditions.

Mini buying guide:

When choosing an **outdoor signage stand**, there are several factors to consider to ensure you make the best choice. Consider the amount of information you want to display. Each slat can be customized on both sides, so choose the number of slats based on your needs.

The **modularity of the system** allows you to add more in the future if necessary. Evaluate the environment where you will install the stand. If the stand needs to be permanently installed, the option with grounding brackets ensures greater stability. If you prefer a temporary or modifiable solution, painted steel bases are the ideal option.

The **stand is designed to withstand the weather**. If you are looking for a long-lasting solution, make sure the materials are of high quality, such as powder-coated metal posts and extruded aluminum slats. The gothic grey finish fits many modern environments. Consider the aesthetics of the place where the stand will be installed to ensure it harmonizes with the surrounding architectural style. The slats can be customized on both sides. Carefully evaluate the type of information you wish to communicate and choose a graphic layout that is clear and legible from a distance. This **h738_131** stand is the ideal choice.

Investing in a high-quality **modular stand** allows you to better manage the signage of outdoor areas, guaranteeing the public an organized experience without disorientation.

Outdoor signage stand, customizable modular signage, anodized aluminum posts, extruded aluminum slats, stand for outdoor areas, ground fixing with bases, weather-resistant signage stand, signage for companies, signage stand customizable on both sides, grounding brackets.
