

Modular play structure with slide for play areas h735_22

Modular game consisting of colored modular elements. Equipped with a slide. Dimensions: W. 400 x D. 75 x h. 140 cm.

Play structure for setting up school gardens, parks and playrooms, certified **in compliance with the UNI EN 1176-1/3 standard**. Made of **high-resistance plastic material**, it consists of **4 panels, 1 ladder panel, 1 large slide, 1 large ladder** and **2 safety railings**. All elements are characterized by their **cheerful and bright colors, resistant to atmospheric agents and ultraviolet rays**. This product is designed to ensure fun and, at the same time, safety during children's play activities. No tools are required for assembly and the entire structure guarantees **solidity and robustness**.

Technical features:

- Made of high-resistance plastic material
- Dimensions: W. 400 x D. 75 x h. 140 cm
- 4 panels
- 1 ladder panel
- 1 large slide
- 1 large ladder
- 2 safety balustrades
- Ease of assembly
- Panel coloring resistant to UV rays and atmospheric agents
- Modular sectional structure
- UNI EN 1176-1/3 certification
