

Modular playground set for outdoor areas h735_29

Modular playground station for the fun of the little ones. Ideal for gardens, courtyards, outdoor areas.

A great classic loved by children, the **colorful playground** for outdoor areas includes slides, tunnels, playhouses and cubes, for climbing, experimenting and sliding outdoors. It is a **versatile** and optimal solution, made of **high-resistance plastic material, easily assembled**. Its bright and vivid **colors resist sun and weather agents**. It is composed of **2 slides/ladders, 29 panels, 2 ladder panels, 4 tunnels, 1 large slide, 1 large ladder, 2 balustrades, 8 triangles and 1 plug**. The slides/ladders can be mounted as a ladder or as a slide, as desired. Structure **compliant** with the **UNI EN 1176-1/3** standard, guarantees **solidity** and **safety** during the play activities of the little ones. The outdoor playground represents a fun that will never tire children.

Technical features:

- Large-scale modular structure
- Overall dimensions: 450 x 550 x h. 140 cm
- Construction material: high-resistance plastic material
- UV and weather resistant colors
- 29 panels
- 2 ladder panels
- 4 tunnels
- 1 large slide
- 1 large ladder
- 2 safety railings
- 8 triangles
- 2 reversible slide/ladders
- 1 plug
- Solid and safe structure
- Quick assembly
- UNI EN 1176-1/3 certification
