

Modular playground station in bright colors h735_26

Modular playground station equipped with a slide. UNI EN 1176-1/3 certified product.

The large-sized **modular playground for children** offers little ones the chance to explore, share, collaborate and experiment while having fun. Perfect for setting up and creating equipped outdoor spaces, it represents the best solution to satisfy children's needs, promoting socialization and the development of creative and behavioral skills. **Solidly structured for the maximum safety of younger children's play**, it is made of a **long-lasting plastic material** and **resistant** to atmospheric agents and UV rays, even over long periods. **Safe and reliable**, it is certified **UNI EN 1176-1/3** and is **easy to assemble**. The structure consists of **13 panels, 2 ladder panels, 2 tunnels, 1 large slide, 1 large ladder, 2 balustrades, 8 triangles**.

Technical features:

- Material: high-resistance plastic
- Overall dimensions: 420 x 400 x h. 140 cm
- Large-sized modular playground
- 13 panels
- 2 ladder panels
- 2 tunnels
- 1 large slide
- 1 large ladder
- 2 safety railings
- 8 triangles
- Solid structure resistant to UV rays and atmospheric agents
- Easy assembly
- UNI EN 1176-1/3 certification
