FAQ:

1. **Is it possible to customize the slats with your own logo or text?**
Yes, the slats are fully customizable on both sides.
2. **How is the stand installed?**
It can be fixed to the ground with perforated bases or buried using special brackets.
3. **What materials are used?**
The uprights are made of powder-coated metal, while the slats are made of extruded aluminum.
4. **Is the stand suitable for outdoor environments?**
Absolutely yes, it has been designed to withstand outdoor conditions.

Mini buying guide:

When choosing a signage stand for outdoor spaces, make sure to evaluate the resistance of the material to weather conditions and the possibility of customizing the signage to best meet the needs of your environment. Choose a stand with a fixing method that best suits the ground and the installation needs of your outdoor space.

Investing in a high-quality **modular stand** allows you to better manage the signage of outdoor areas, ensuring the public an organized and disorientation-free experience.
