Modular workshop furniture h905_29

Green modular configuration with cabinet, 7-drawer chest, lockable wall units and tool grids. Dimensions: W 205 x D 75.7 x H 200 cm.

The **H905_29 modular workshop furniture** is a solution designed to ensure order, efficiency and practicality in professional spaces such as workshops, laboratories and garages. This complete system is designed to help you best organize tools and materials, improving productivity and keeping the work environment clean and functional.

The configuration includes a **2-door cabinet module**, ideal for storing bulkier materials or equipment to be protected from dust. The **7-drawer mobile chest**, equipped with sturdy slides, allows you to divide tools and accessories in an orderly and always accessible way. To ensure practical management of waste and consumables, the system includes a **paper holder module with a waste drawer**, perfect for keeping the work area always tidy.

To optimize vertical space, the system provides **two upper wall units**, equipped with gas struts for smooth opening and secure closing thanks to the integrated locks. The **two tool holder grids** represent a practical solution for always having the most used tools at hand. Finally, the **integrated power socket** is equipped with a 220V socket, a Schuko socket and a USB port, offering the versatility needed to power both work equipment and electronic devices such as smartphones or tablets.

Finished in an elegant **green** color, this modular furniture is not only robust and durable, but also adds a touch of professionalism to the environment. The dimensions of **2050 x 757 x 2000 mm** guarantee a compact footprint without sacrificing functionality. The presence of **integrated wheels**, **2 of which with brakes**, allows the system to be moved with ease and firmly locked in position when necessary.

This modular furniture is not only a solution for organizing space, but a real ally for improving efficiency and safety at work. Thanks to its solid structure and intelligent design, you will be able to work in an orderly environment, making the best use of every available centimeter.

Renew and optimize your workshop with the **H905_29 modular furniture**. Complete, resistant and customizable, it is the perfect solution for organizing tools and materials. Order now or contact us for personalized configurations and quotes!

   The mobile drawer unit is equipped with 7 drawers.
5. **What else does the paper holder module contain?**
   The paper holder module is equipped with a waste drawer.

Mini buying guide:

Choosing the **H905_29 modular furniture** means investing in a complete, versatile solution designed to meet the needs of workshops, laboratories and garages. This system is ideal for those looking for an effective way to organize workspaces, improve productivity and ensure a tidy and safe environment.

Before proceeding with the purchase, evaluate the space available in your workshop. With dimensions of **W 205 x D 75.7 x H 200 cm**, this configuration is compact enough to fit into small spaces, but at the same time offers optimal capacity for storing tools, materials and equipment. If you need further flexibility, consider that the system is fully modular and can be expanded with other elements to suit your specific needs.

The presence of a **cabinet module** and a **7-drawer chest** ensures practical management of tools and materials, while the **lockable upper wall units** offer a secure space to store valuable tools or important documents. The **tool holder grids** represent an excellent solution for organizing frequently used tools, ensuring they are always within reach.

One aspect to consider is the **integrated power socket**, which adds significant practical value to the system. With a 220V socket, a Schuko socket and a USB port, you can easily power electrical devices and charge smartphones or tablets directly from your workstation. This feature is particularly useful for those who use electrical equipment or need to stay connected during daily activities.

Finally, the robust design and the **green** color ensure resistance to daily wear and external agents, making this solution a long-term investment for any professional environment. If you want a system that combines aesthetics, functionality and durability, the H905_29 is the right choice for you.
