

Monobloc desk with swivel stool size 6 h908_185

Monobloc desk with Ø40mm steel swivel stool. Dimensions 70x33xH76 cm (Size 6). Ergonomics and robustness for school and technical environments.

The **h908_185 monobloc desk** is a technical solution designed to optimize functionality and resistance in intensive school and training environments. The integration of the **swivel stool** allows the user a smooth rotation, facilitating the transition between frontal teaching and group interaction without the need to move independent furniture components.

The load-bearing structure is made of **tubular metal** with **40 mm diameter** steel legs, ensuring superior structural stability and high resistance to mechanical stress. The **Size 6** configuration is specifically dimensioned to meet the ergonomic needs of tall students, ensuring correct postural support during prolonged use.

Technical features

- **Type:** monobloc desk with integrated swivel seat
- **Total dimensions:** W. 70 x D. 33 x H. 76 cm
- **Dimensional classification:** Size 6 (ergonomic standard for tall students)
- **Frame:** tubular metal with aluminium color finish
- **Supports:** high-capacity Ø 40 mm steel tube
- **Worktop:** resistant surface in ivory color
- **Seat mechanism:** swivel stool integrated into the structure
