

Monobloc school desk with swivel chair size 6 h908_183

Monobloc school desk in steel with integrated swivel chair. Size 6 for tall students, ergonomic design and robust Ø40 mm structure.

The **h908_183 school desk** represents an excellence monobloc solution for educational furniture, integrating a workstation and seating into a single structure. Designed to withstand intensive use cycles, this model is equipped with an **integrated swivel chair** that promotes fluid orientation for the student, improving dynamism and ergonomics during lesson hours without having to move separate components.

The construction is based on a **high-resistance tubular metal** frame, with legs made of 40 mm diameter steel that ensure superior stability and the absence of vibrations. The ivory-toned worktop offers a large, anti-reflective surface, facilitating concentration and daily maintenance.
