

Monoblock school desk with swivel chair size 5 h908_182

Monoblock school desk size 5 with integrated swivel chair, Ø40mm steel structure and 70x50 cm top for ergonomic educational classrooms.

The **h908_182 monoblock school desk** is a solution designed to optimize school environments through the integration of a work surface and seating into a single cohesive structure. The configuration with an **integrated swivel chair** is designed to promote the student's dynamic mobility, allowing easy rotations for group work or frontal interaction without the need to physically move the entire piece of furniture. This system ensures order within the classroom and facilitates floor cleaning operations.

Structural solidity is ensured by the use of **steel metal tubular with a diameter of 40 mm**, treated with aluminum-colored painting for high resistance to daily wear and impact. The ivory-toned work surface offers an anti-reflective surface functional for writing and reading activities, respecting the dimensional parameters of **size 5** provided for the reference school age groups.
