

## Mortuary trolley h448\_46

Stainless steel mortuary trolley with support bed, push handles and 4 wheels Ø125mm (2 with brake). Dimensions 202x65x80 cm, weight 35 kg.

The **mortuary trolley** is a specialized device for the safe and dignified transport of the deceased in hospital settings, morgues, mortuaries, and funeral facilities. Made entirely of **stainless steel**, it guarantees resistance to corrosion, durability, and ease of sanitization, essential requirements in hygiene-critical environments.

The structure consists of a **steel bed support** that offers stability and a flat surface for transport. Two ergonomic **push handles** allow for easy and controlled movement, while the **4 swivel wheels Ø125mm** ensure maneuverability in tight spaces. Two wheels are equipped with a **brake**, allowing for a safe stop during loading and unloading operations or during transport breaks.

## Technical features

- **Material:** stainless steel
- **Push handles:** n. 2
- **Wheels:** n. 4 swivel Ø125mm, of which 2 with brake
- **Dimensions:** length 202 cm x depth 65 cm x height 80 cm
- **Weight:** 35 kg
