

## Motorcycle-shaped spring rider h521\_12

Motorcycle-shaped spring rider in HDPE and steel, 91x25x85 cm. Anti-trauma structure certified UNI EN1176 for public and school play areas.

The **h521\_12** spring rider is professional play equipment designed for the setup of public playgrounds, school recreational areas, and playrooms. The motorcycle-shaped outline is designed to stimulate imagination and promote the development of the sense of balance in children, while ensuring the highest passive safety standards thanks to a design totally free of sharp edges and cutting components.

## Technical features

- **Total dimensions:** L91 x W25 x H85 cm
- **Safety area:** Required footprint of 9 sqm
- **Outline and seat material:** High-density polyethylene (HDPE) resistant to UV rays
- **Elastic structure:** Steel spring with 20 mm thickness
- **Surface treatment:** Professional polyester powder coating resistant to atmospheric agents
- **Safety components:** Ergonomic plastic handles and tamper-proof screw caps
- **Anchoring:** Perforated metal base for stable ground fixing
- **User target:** Suitable for children aged between 3 and 12 years
- **Compliance:** Certification according to UNI EN1176 standards
