

## Multi-play tower with colored slide h350\_260

Multi-play tower with slide and climbing ladder. Age: 2-8 years.

**Colorful and vibrant multi-play tower** designed for children's fun in complete safety. Certified in compliance with European Standards EN 1176 by the German Institute TÜV - SÜD.

**Play composition** for public parks with a structure made of EN AW 6060 alloy aluminum posts and pantographed HPL layered bilaminate panels without sharp edges.

### Multi-play structure consisting of:

- No. 1 tower with aluminum posts section 7x7 cm, platform (fall height 98 cm) in checkered aluminum, decorative roof made with HPL panels and galvanized and painted steel tubes, 8 mm HPL layered bilaminate protective panels. Dim. 80x80x275h cm;
- No. 1 climbing ladder made with 15 mm HPL layered bilaminate side supports and checkered aluminum steps. Laterally, it is equipped with 15 mm HPL layered bilaminate protections, acting as handrails.
- No. 1 slide H 98 cm in high-density mass-colored rotational polyethylene, connected to the structure with 15 mm HPL layered bilaminate panels.

Assembly using **8.8 galvanized steel bolts** and self-locking nuts. Standard nut cover elements in colored nylon. Oven painting at 180°C. Polyethylene pole caps. Hot-dip galvanized metal attachments for ground anchoring.

\*purely indicative image, the product may undergo changes in coloring

\*\*upon request for a quote, as an alternative to the open polyethylene slide, a slide with a steel track and wooden sides, a polyethylene tunnel slide, or a fiberglass slide can be installed.
