Multi-purpose bench for kindergartens and nurseries h681_27

Multi-purpose bench h681_27 in solid FSC beech wood, usable as a table or seat with different seat heights, depending on the positioning of the bench on the floor. W 90 x D 31 x h 16/21/36 cm.

The **multi-purpose bench h681_27** has been designed for use by children aged **0-3 years**, offering a multi-functional solution suitable for various educational contexts such as **nurseries** and **kindergartens**. Thanks to its versatility, the bench can be used both as a **table** and as a **seat**, with **three different seat heights depending on how it is positioned on the floor**, making it flexible and easily adaptable to various needs.

The **load-bearing structure** is made of **solid beech wood**. The **turned** wood parts, with a diameter of **25 mm**, guarantee optimal robustness, while the **connecting rungs** between the legs, both upper and lower, also made of solid beech wood, ensure the overall stability of the bench.

The **seat** and **backrest** are made of **FSC beech plywood panels**, with a thickness of **8 mm**, which guarantees a comfortable and resistant seat. The treatment of the turned parts, rungs, and panels includes **sanding**, a coat of **primer (filler)** and a final finish with **20 gloss matte clear varnish**, which protects the surface from scratches and wear, while maintaining a natural and delicate appearance.

One of the main features of the h681_27 bench is the **presence of 3 different heights** of the seat, depending on its positioning on the floor. When used as a **table**, it will be **36 cm**. When positioned as a **bench**, the seat height can be **16 cm** or **21 cm**, depending on how it is placed on the floor, making it perfect for adapting to the child's growth or the needs of different school activities.

All **edges and corners** of the bench are **rounded** with a minimum radius of **2 mm**, complying with safety regulations and preventing the risk of injury for children. Assembly is carried out via **joints**, **thermosetting glues**, and **mounting screws**, guaranteeing a secure and stable hold over time.

Choose the **multi-purpose bench h681_27** to offer children a safe, versatile, and resistant piece of furniture. Perfect for school activities, games, or moments of rest. **Order now** for a product that adapts to every need!

- **Ease of maintenance:** the treated surface is scratch-resistant and easy to clean, perfect for intensive use.

FAQ:

1. **What ages is this bench designed for?**
The bench is suitable for children aged **0-3 years**, with adjustable heights that adapt to growth and various activities.
2. **What height configurations are available?**
The bench can be used as a **table** with a height of **36 cm**, or as a **seat** with two adjustable heights: **16 cm** and **21 cm**, depending on the positioning on the floor.
3. **Are the materials safe for children?**
Yes, the bench is made of **solid beech wood**, treated with non-toxic paints and designed with rounded edges to ensure maximum safety.
4. **How resistant is the bench?**
Thanks to the solid wood structure and assembly with joints and screws, the bench is designed to withstand daily use in school environments.
5. **How do you clean the bench?**
The surface is treated to resist scratches and can be easily cleaned with a damp cloth and mild detergents.

Mini purchasing guide:

The **multi-purpose bench h681_27** is a versatile and safe piece of furniture, perfect for kindergartens and nurseries. Thanks to the possibility of being used both as a **table** and as a **seat**, it is an extremely functional product that adapts to the different needs of children aged **0-3 years**. The bench offers **three different heights**: it can be used as a table with a top height of 36 cm, or as a seat with heights of 16 cm or 21 cm, based on the floor support, making it perfect for educational activities, games, or moments of relaxation. This adjustability ensures long-term use, accompanying the children's growth.

With seat and backrest made of **solid FSC beech wood**, the bench is eco-friendly and complies with safety regulations, with **rounded** edges and **non-toxic** finishes that make it safe for the little ones. The robust structure guarantees long life even with daily use in school environments, while the scratch-resistant surface treatment facilitates maintenance and cleaning.

When choosing furniture for kindergartens, it is important to evaluate not only **safety**, but also **versatility** and **durability**. The **multi-purpose bench h681_27** meets all these needs, offering a functional solution that can be easily integrated into any educational space. If you are looking for a product that adapts to different activities and can be used over time, this bench represents an intelligent and practical choice to improve the children's educational experience.
