

Multi-purpose chair for nursery school h40203

Nursery chair in solid beech wood with backrest and seat in varnished plywood.

The **solid beech wood chair**, in addition to being robust and resistant thanks to its particular structure, is very functional.

The structure has been designed for various uses. This double-height chair, in fact, can also be used as a small table or stool if turned upside down.

The backrest and seat are made of varnished plywood with rounded edges and corners. The seat surface is fixed; by turning the chair upside down, the seat height varies from 17 to 21 cm

Technical features

- Seat height: 17/21 cm
- Solid beech wood structure
- Backrest and seat in varnished plywood
