

Multi-purpose cleaning trolley h422_53

Multi-purpose cleaning trolley. Recycled plastic. Dimensions: W.98xd.68xh.111 cm

Professional cleaning trolley ideal for hotel facilities. Ideal for environments where everything needed for dusting, waste collection, floor and surface washing is required, all in one trolley. Product made in part with plastic components **certified PSV - Second Life Plastic**: the first Italian and European environmental product certification brand that guarantees and makes goods obtained using recycled plastics more easily identifiable. The **polypropylene copolymer components are non-toxic** and totally recyclable. Robust, compact, ergonomic, modular, easy to assemble and clean. Equipped with **two 15-litre buckets** that allow the detergent solution to be separated from the rinsing water, obtaining better washing results, greater hygiene, product savings, less working time and less effort for the operator. Upright that guarantees maximum hygiene because it separates the waste collection area from the rest of the trolley. **Closed bag holder** on four sides for maximum hygiene and equipped with a door to allow frontal extraction of the waste bag, without having to lift it. Bag holder equipped with an **ergonomic push handle**. Complete with two pistons that allow a soft closing of the lid, ensuring maximum silence. **4-litre buckets** differentiated in color for the possible differentiation of chemical products and tools used. The upper bag holder and the lower pull-out drawer allow the trolley to be equipped with a closed storage area.

Technical features:

- Material: Polypropylene copolymer and painted steel
- With two 15-litre buckets each
- Closed bag holder
- 4-litre storage trays
- Down-press wringer
- Dimensions: W.98xD.68xh.111 cm
