

Multi-purpose office cabinet h471_64

Low sheet steel cabinet RAL 7038, 800x400x1000 mm, 2 doors, adjustable shelf and 2 internal drawers. Ideal for filing in offices and construction sites.

The **monobloc sheet metal cabinet** is a storage solution designed for the rational organization of professional spaces such as offices, public bodies and construction site areas. Made of **cold-rolled sheet metal** and painted with epoxy-polyester powders, it guarantees resistance to wear and protection of the stored materials. The internal configuration combines the versatility of a mobile shelf with the specificity of two integrated drawers, offering tidy management of both documents and small items.
