

## Multi-waste collection container h42408

Waste sorting container with 3 bins. Ideal for small indoor spaces. Total capacity 22 liters. Light grey or white color.

Dimensions: 175 x 590 x h403 mm. Weight: 5 kg

The waste sorting container is a necessary item not only for outdoor environments, but also for indoor spaces in order to keep the surrounding area clean.

The product is therefore suitable for **small indoor spaces** such as offices, gyms and the like.

The waste bin consists of **three black bins**, made of **PP polypropylene** and **each bin** has a capacity of **7.5 lt.**

The **inner buckets** are **easily washable** making the product **practical to empty** and clean.

The container is made of **hot-dip galvanized steel** and finished with a **thermo-heating polyester powder coating**.

The presence of **waste symbols** corresponding to each bin makes the function of each of them intuitive.

The **rubber feet** included promote the stability of the product.

The product is available in **light grey** or **white** color.

*Upon request and subject to a quote, the product is available for a different number of waste types.*
