

Multifunction hospital trolley h448_102

Multifunction hospital trolley with self-closing drawer. Dimensions: W.65 x D.56 x H.94. Available in various colors.

The hospital trolley for medical equipment is ideal for medical clinics, hospitals and private surgeries and is essential for safely transporting medical devices necessary for performing diagnoses and analyses.

The trolley features a **steel and aluminum structure** with **epoxy coating** and an **ABS top surface with a flange on three sides** where electromedical devices can be placed.

The trolley is also equipped with a **self-closing drawer** with telescopic slides where accessories and medical supplies can be stored.

The side handle and the 4 swivel wheels Ø100 allow the medical trolley to be moved easily from one room to another.

It is possible to receive the trolley by choosing from various finishes for the drawer and side details.
