

## Multifunctional carrying chair h568\_04

Evacuation chair suitable for transporting disabled people in the presence of stairs or uphill roads. Closed dimensions: W51 x D21 x H 120 cm

**Carrying chair** for rescuing people with reduced mobility, ideal for use by firefighters and ambulance employees. Equipped with **height-adjustable and non-slip maneuvering handle**, **padded headrest** complete with immobilizing strap, **double ergonomic backrest** with sliding belt system. Thanks to the presence of a bracket in the upper rear part and handles in the lower front part, it is also ideal for **uphill transport or on stairs**. In addition, it also allows the patient to be transported in a **horizontal position**, by opening a support with a base equipped with swivel wheels.
