

## Multipurpose cabinet with shelf h471\_65

Low monoblock cabinet in RAL 7038 painted sheet metal, 100x40x100 cm, with two 180° doors and key lock for archiving and offices.

The **low monoblock cabinet** represents a professional solution for the rational organization of documents, folders, and stationery in commercial offices and professional studios. The structure is entirely made of **sheet steel**, subjected to an epoxy-polyester powder coating process in RAL 7038 Grey finish, which guarantees resistance to wear and chemical detergents. The closing system integrates **doors with 180° opening** for total access to the internal compartment, facilitated by internal hinges with visible pins that combine aesthetics and mechanical functionality.

## Technical features

- **Structure:** Monoblock in sheet steel
- **Opening:** 2 swing doors with 180° opening radius
- **Internal configuration:** 1 height-adjustable shelf for space optimization
- **Structural safety:** Internal anti-warp reinforcement ribbing
- **Lock:** Key lock for protection of sensitive documents
- **Color:** RAL 7038 Grey
- **Weight:** 28 kg
- **Dimensions:** W 1000 x D 400 x H 1000 mm
