

Multipurpose canteen table 180 x 80 h908_54

Multipurpose canteen table with 180x80 cm melamine top and Ø40 mm steel legs. Robust structure designed for intensive use in collective spaces.

The multipurpose canteen table **h908_54** is a technical solution designed for the functional furnishing of high-traffic environments. Thanks to the generous dimensions of the **180 x 80 cm** top, the product effectively meets the needs of corporate canteens, schools, and multipurpose rooms, offering a wide and stable work or dining surface. The construction project focuses on mechanical durability, solving the critical issues related to daily wear and tear in professional and educational contexts.

Technical specifications

- **Top material:** high-resistance melamine
- **Supporting structure:** Ø40 mm steel tube legs
- **Total height:** 76 cm
- **Overall dimensions:** W 180 x D 80 x H 76 cm
- **Resistance:** suitable for loads and intensive use in public environments
- **Finish:** surface treatment resistant to corrosion and detergents

Optional on request:

- Customized dimensions based on the floor plan of the rooms
- Laminate top for superior surface resistance performance
