

Multipurpose cleaning trolley h422_99

Professional h422_99 polypropylene trolley for technical cleaning, 133x68x114 cm, with flat press wringer and GPP compliance for healthcare environments.

The **h422_99** professional trolley is a complete workstation designed for sanitation and waste management in high-frequency and hygiene-sensitive environments. The structure, made of **polypropylene copolymer**, ensures high resistance to impacts, mechanical loads, and chemical aggression from professional detergents. Thanks to its modular configuration including a bag holder, storage trays, and a differentiated bucket system, the trolley optimizes workflows in complex contexts such as hospitals and canteens.

Technical features

- **Material:** High-density polypropylene copolymer
- **Configuration:** Bag holder with ergonomic push handle and central tray
- **Bucket capacity:** Two 4-liter units for specific solutions and two 15-liter units for washing
- **Wringing system:** Flat press wringer optimized for 40 cm flat mops and cloths
- **Dimensions:** W. 133 x D. 68 x H. 114 cm
- **Safety and Standards:** Latex-free product and fully compliant with GPP (Minimum Environmental Criteria)
- **Assembly:** Compact structure designed for quick and intuitive assembly
