

Multipurpose first aid backpack h687_29

First aid backpack in durable Cordura. Dimensions: 420 x 300 x h600 mm. Capacity: 45 L.

The first aid backpack is a spacious and versatile multipurpose rescue product, suitable for emergency services in general. Developed vertically, it allows for five different colored containers (not included) in dedicated compartments, equipped for various rescue devices and easily positioned via convenient strap strips. The fastening system allows for the extraction of any bag from any position without interfering with the others. **The backpack consists of two additional bags**, removable via a convenient zipper: the first, smaller one, is located at the top and the second, which transforms into a convenient small backpack, is located at the front. Supporting structure integrated into the grip points, with an internal part in light alloy and rigid polyethylene. **Made of very resistant Cordura with reflective strips that improve its visibility.**
