

Multipurpose height-adjustable couch h559_31

Three-section multipurpose medical examination couch with adjustable height. Structure made of Fe360 metal.

Medical examination couch ideal for clinics, medical practices, hospitals. **Capacity: 150 kg.** Base structure made of **Fe360 metal**, solid and resistant, with **rotation points mounted on self-lubricating bushings**. During movement, the couch **does not undergo front-to-back displacement**. The **metal parts** are **painted with white RAL 9003 epoxy powder** with a minimum thickness of 70/80 microns and a glossy finish. The couch consists of **high-density fire-retardant padding class 1 IM** and is covered in **class 1 fire-retardant fabric** (skai, faux leather), washable with common detergents. The **height is adjustable via an electric motor** with 6000N power and **foot control included**. The **headrest is adjustable with a cylindrical gas spring** with 600N power, with inclination +60° and -10°. The **central section is also operated by a gas spring** with the same power and +65° inclination. Item subject to **phosphodegreasing, rinsing, and painting** treatments in polymerized powder at 200°.

Technical features:

- Dimensions: H min 480 max 950 x L 1950 x D 600 mm
- 3-section couch with dimensions 480 mm, 830 mm, 560 mm (see photo)
- Capacity: 150 kg
- Weight: 70 kg
- Base structure material: Fe360 metal
- High-density fire-retardant padding class 1 IM
- Covering in class 1 fire-retardant fabric (skai)
- Color: white RAL 9003
- Electrically adjustable height (electric motor power 6000N)
- Foot control included
- Headrest and central cushion adjustable via gas spring
- Gas spring power: 600N
- Headrest adjustment: +60° -10°
- Central cushion adjustment: +65°
- Product subject to phosphodegreasing, rinsing, and painting
- Available in different colors
- Class 1 medical device compliant with the requirements of Directive EEC 93/42
